## CANAL TREATY READY TO PASS.

Dissatisfaction Expressed By Bacon and Culberson-A Safe Majority Assured-The Day's Work

Senator Cullom of Illinois, who is to be the successor of the late Senator Davis of Minnesota as chairman of the Committee on Foreign Relations, created a prece dent in the executive session of the Senate yesterday by reading a prepared type written speech in support of the pending Hay-Pauncefote canal treaty. Executive session speeches have always heretofore good reason, if for no other, they are not recorded. Senator Cullom's effort, therefore, will never see the light of day unless the Senate should remove the injunction of secreer on it, and as this would be cre ating another precedent, the Senate, being a body which much prefers to break rather than make precedents, is not likely

Mr. Cullom endorsed the treaty throughout. It is just exactly the treaty that the Senate had been clamoring for, he said, and places the ownership and con-trol of the canal entirely in the hands of the United States Government. tion. Agres returned to his room from his baccahanalian revels. The next we hear of him is from the lips of the ac-

England is not a party to the bargain, so far as the control of the canal is conso far as the control of the canal is con-cerned, Mr. Cullem said, and he added that he would be for the treaty, even if it were less open to criticism than it is, be-cause of the everpowering importance of pa. og the way for the construction of the canal. He said there was no force whatever in the criticisms of the new pro-vision (Article IV), that no change of territorial sovereignty shall affect the general principle of neutralization or the obligation of the contracting parties to the treaty, because the United States the treaty, because the United States would stand good for its bargain under whatever changed conditions might de-velop in the future.

Senator Bacon, one of the two Demo-Senator Bacon, one of the two Demo-cratic members of the Foreign Relations Committee, who voted against reporting the treaty, made a long speech, express-ing general disastisfaction with the terms of the treaty, which, he said, were no better and should be no more acceptable to the Senate than those of the rejected convention. Mr. Bacon has made some to the Schate than those of the rejected convention. Mr. Bacon has made some talk of offering the so-called Davis amendment with regard to the specific powers of the United States to fortify the canal, but has finally decided not to do this, and will not make any further effort to amend or defeat the treaty.

### May Take the Vote Today.

Senator Lodge, in charge of the treaty, was told yesterday by Senator Jones, the leader of the Democratic minority, that he saw no reason why a vote should not be taken today, and it is possible that this may be done. This is not certain, however, for there are a few Senators, including Mr. Tillman of South Carolina, who are not entirely satisfied with the treaty and rather think it is the form treaty and rather think it is their duty to stir up a row about it. Senntor Money of Mississippi, a member of the Poreign Relations Committee, will make a speech today in opposition. So far as is known no other Senntor desires to speak, so that a vote may possibly be taken immediately thereafter.

The Democrats who are most outspoken in their opposition to the t-eaty are Bacon, Money, Culberson and Till-man. The first two, however, will probman. The first two, however, will proship not vote at all, as they are so anxious, they say, to have a canal built that
went up the first escape, through the window, and shot Ayres in cold bleed. If even the slightest obstacle in its way.

### How the Senate Stands.

The Republican Senators will probably all vote for ratification, and it is likely that their votes, added to those of the Democrats who will follow the lead of Senator Morgan of Alabama and support the treaty, will bring the total affirmative vote to upward of sixty, which is, of course, more than a sufficient two-thirds of eighty-eight, the total membership of the Senate at present. The opposition vote is not likely to number more than

Mr. Culberson, in voicing his opposition, raises the point that the new treaty retains in spirit at least section 8 of the Clayton-Bulwer Treaty, which makes Great Britain a partner of the United States in the control of the canal.

The reply of Senator Lodge, in charge of the treaty, is that Mr. Culberson is entirely mintaken, and that if he is right, he Mr. Lodge) would vote against the treaty himself, as he is just as much opposed to taking England into purtnership with the United States as Mr. Culiberson or any other Senator possibly can be.

gradually fails in meetal and nervous power as well as loss in muscle. Such a diet could not be kept up long without fatal results. A lady in Jack sonville. Fin., was crippled by an acci-dent two years ago. Being without the power of exercise, an old atomach trouble that was here for years became worse by the Federal grand jury at Boston, and

fond that she could digest. A physician put her on Grape-Nuta Breakfast Food with some remarkable re-sults. She says now that not only is she able to do a big day's work, because of the strength of her brain and serves, but has finally thrown away her crutches because the muscles of her limb have gradually grown stronger since she began the use of Grape-Nuts, and now she is practically well, and can go about without trouble, notwithstanding the fact that it was said she would never be able to walk again. So much for eating the right kind of food, instead of remaining an invalid and a cripple because of the right kind of food, instead of remaining an invalid and a cripple because of the lack of knowledge of the kins of food to use to bring one back to heafth. Mr. Fulton depicted the dead man as a blackguard who endeavored to take advantage of a married woman's platonic interest in him.

#### The Prosecution Defied.

Counsel denied the Government's con tention that she permitted Ayres to take liberties, or that she made any especial preparations in her dress when she went to his room, defying the prosecution to produce such evidence.

"Gentlemen, it was a very indiscreet thing for her to do," admitted Mr. Ful-ton. He added impressively: "We are

## TUNNEL ENTRY TO NEW YORK.

Pennsylvania Road Abandons Its Bridge Plan.

#### APPLICATION FOR FRANCHISE MADE.

Terminal Under City to Be Connected by a Line to the Long Island Railway's Property, Thus Providing a Union Station.

NEW YORK, Dec. 11 .- As the advent of the new administration of city affairs oppreaches, announcement is made that the Pennsylvania Railroad will soon apply for a franchise for a deep tunnel for an electric railroad under both rivers and under Manhattan Island, to give the road

The railroad company that will build the tunnel road was incorporated at Albany today, and the railroad company that is to connect the tunnel road in New Jersey with the Pennsylvania Railroad lines

is being organized. The news helps explain the announce ment just made, that, so far as the Pennsylvania Railroad was concerned, the proposal to bridge the North River had been relegated to an indefinite future, and the conclusion of the Pennsylvania Railroad authorities that a terminal tunnel can hest be operated by electricity will be interesting to the New York Central peo-

President Cassatt, of the Pennsylvania

"The Pennsylvania Railroad Company is now prepared to carry out its policy, long since adopted, of extending its rall-road into New York City, therein estab-lishing a sultable passenger terminus for the accommodation of the public.

### Through Underground Connection.

"To accomplish this on a comprehensive plan the Long Island Extension Railroad Company will withdraw its application for power to construct its terminal railroad, and in Heu of such independent construction it is now proposed to build, under the charter of the Pennnsylvania-New York Extension Railroad Company just organized, and a New Jersey ratiroad company about to be organized, a through underground connection between the Long Island line in Brooklyn and the Pennsylvania lines in New Jersey, and to construct a proper and commodiderground terminal station in New York City for the Pennnsylvania and Long Isi-

and roads." The incorporation papers of the Pennsylvania-New York Extension Railroad capital as \$1,000,000 and state it is or-canized to operate an underground tunnel electric road from a point on the dividing line between the States of New York and New Jersey opposite that part of New York City between Wes. Twenty-third and West Forty-fifth Streets.
